MILLS FOR SALE.

THE subscriber offers for sale his Mill Establishment on Horse Creek, in Telfair County, Georgia. Two Saws and a Grist are in good order for operating. The stream is a large one, and is considered to be as good as any in this section of country. There are about seven thousand acres of land attached to the premises, the most of which is well timbered with yellow pine, and there is a sufficient quantity of hard timber for the use of a Mill; they are so situated, that the supply of yellow pine timber will be inexhaustable. They are situated about eleven miles from Lumber City in said County, and about two miles from the Ocmulgee River. Lumber can be sent with great ease down the Creek from the Mills to the River. Persons wishing to purchase, can apply either personally or by letter, to the subscriber at Ocmulgeeville, Telfair County, Ga. N. ASHLEY.

☞ The Advertiser at Portland, Me.; the Whig & Courier at Bangor, Me.; and the Patriot & State Gazette at Concord, N. H., are requested to insert the above advertisement once a week for three months, and forward their accounts immediately to this office for payment.

Aug 22 iaw3m.

To the Hon. the Senate and House of Representatives in Legislature Assembled:

THE undersigned, your petitioners, Inhabitants of Plantation No. 4, in the 6th Range from the East line of the State, would respectfully represent, that we are desirous of enjoying the privileges of incorporated towns, which we do not now enjoy. And would therefore pray that your Honorable Body, would grant us an act of incorporation, to be known by the name of Patten. And we, your petitioners, would further represent that this Plantation has been, contrary to the wishes of your petitioners, incorporated into a plantation. We would therefore pray your Honorable Body to repeal such act of incorporation and grant us an act of full incorporation, and as in duty bound would ever pray.

JACOB COBLIAN Jr. & 57 others. w3w

RUFUS NEWCOMB.

Newburgh, Sept. 10, 1840. w3w

Citizens of Maine!

IN order to secure to you the true BRANDRETH VEGETABLE UNIVERSAL PILLS, the sale of them in your State will hereafter be conducted in the following manner: But one travelling Agent,

MR JOHN O. LANGLEY

Will visit the State, whose authority to act for me, will be made manifest, by his producing numerous Certificates signed with a pen by me, with my family arms embossed upon the paper and a finely executed view of my Manufactory in New York State engraved thereon. Local Agents, by observing this need never be imposed upon by Pedlars. Every Local Agent, furnished with the genuine Pills, will have one of those aforementioned Certificates put up in his store. Observe that it is signed with a pen, B. BRANDRETH, M. D. and that my Family Arms are embossed upon the paper.

SEE THAT THE DATE THEREOF IS ENGRAVED.

☞ No Certificate is any guarantee that the holder sells Genuine Pills after one year from the engraved date thereof.

☞ Purchasers by observing this need never be imposed by Local or Travelling Traders, who have no more principle than to deal in Counter of Medicine. See the reading on the side of the box, and never forget to ask for this

CERTIFICATE OF AGENCY!!

The forementioned Travelling Agent will make frequent calls upon Local Agents, furnishing them from time to time with supplies of the

Genuine Brandreth's Pills,

From my Principal New England Office,

19 HANOVER STREET, 19.

BOSTON

☞ No Pills will be sold from me to retail in Maine but to the Local Agents, therefore, should others, not holding my Certificate of Agency, profess to have the Genuine Brandreth Pills, BELIEVE THEM NOT! ☞ One word to Traffickers in Counterfeits of my Pills, I am determined to EXPOSE and PROSECUTE all infringements upon my just rights.

A list of my Local Agents in Maine will be published in most of the papers printed in that State.

Purchasers, buy of those Agents only, and you will avoid imposition.

If the genuine medicine is obtained, there is no doubt of its giving perfect satisfaction; and if all who want it are careful to go by the above directions, there is but little danger but they will obtain it.

In all kinds of sickness the great secret is to have the medicine by you when you are first attacked; one dose then will do more good than twenty, if put off until disease has enfeebled the bodily powers. Let me then, recommend every individual who considers health a blessing, to keep a box of them where he can be sure to lay his hand on them when wanted. Twenty five cents cannot possibly be better disposed of; a valuable life may be saved, or a long fit of sickness prevented.

They have cured since their introduction into the United States, probably nearly 300,000 persons of consumption, influenza, colds, indigestion, dyspepsia, headache, and sense of fullness in the back part of the head, usually the symptoms of apoplexy, jaundice, fever and ague, bilious, scarlet, typhus, yellow, and common fevers of all kinds; asthma, gout, rheumatism, nervous disease, liver complaint, pleurisy, inward weakness, depression of the spirits, ruptures, inflamation, sore eyes, fits, palsy, dropsy, small pox, measles, croup, coughs, whooping cough, quinsy, cholic, cholera morbus, gravel, worms, dysentery, deafness, ringing noise in the head, king's evil, scrofula, erysipelas, or St Anthony's fire, salt rheum, white swellings, ulcers, some of thirty years standing, cancers, tumours, swelled feet and legs, piles, costiveness, all eruptions of the skin, particularly ring worms, frightful dreams, female complaints of every kind, especially obstructions, relaxations, &c

Although it will only be five years next May since the first office was established in New York, yet in that time I have sold over NINE MILLIONS OF BOXES, and have now seventeen offices for their exclusive sale, at least one in every principal city of the Union, at an expense of nearly forty thousand dollars per year. And with the expenses of advertising, and other incidentals, this sum was a little over one hundred thousand dollars, for the year 1839, some idea may be formed of how the medicine is appreciated from these facts. They are indeed the greatest blessing that ever yet has been bestowed upon man.

I suppose a hundred volumes might be filled with certified cases of cure, solely by Brandreth's Vegetable Universal Pills, on all the above mentioned appearances of only one disease, all really proceeding from Impure Blood.

B. BRANDRETH, M. D.

Sole proprietor of the B. V. U. Pills in the United States of America.

INSURANCE AGAINST FIRE!!!

PENOBSCOT MUTUAL FIRE INSURANCE COMPANY.

Office at Bangor.

THIS Office is now in successful operation, having extended its business into sixty towns in the Counties of Penobscot, Waldo, Hancock, Washington, Piscataquis, Somerset, Franklin and Aroostook; and now presents its claims to the people of the whole Eastern section of the State, in the confidence that its superior location, its success thus far, and the determination of its Officers to render it in every respect worthy their patronage, will ensure it to become ultimately the largest office in the State. The superiority of large Mutual Offices over Stock Offices must be plain to every man in the community. ☞ Policies issued for six years, and all extra-hazardous risks rejected.

JONAS CUTTING, President.

ISAAC S. WHITMAN, Sec'y and Treasurer.

Bangor, June 6, 1840. w1y

☞ Important Caution. ☜

It is a singular fact and one much to be regretted, that valuable medicines, as soon as they become popular, and have received the test and approval of a discriminating public, are sure to be counterfeited, and thus a bad and spurious article is immediately palmed upon the unsuspecting as the genuine. This has been notoriously the case with all popular tried and truly valuable medicines for years past, and will probably continue to be the case for years to come.

The base and contemptible counterfeiter in this way meanly takes advantage of all the efforts and the advertising used by the proprietors of the genuine article to get their medicines into use and deserved popularity. It is therefore not less the duty than it contributes to the safety of every honest individual in the community, to expose, frown down, and forever deter from all heartless imposters, who thus irresponsibly trifle with health and life.

THEREFORE TAKE NOTICE.

There is a person by the name of A. B. ROCHEFORT, now engaged in selling a Pill done up in boxes in exact and perfect imitation of the genuine INDIAN VEGETABLE PILLS, with the omission of but one word on the boxes, viz. WRIGHT. The Pills sold by this Rochefort are evidently intended as a fraud and imposition upon the community or they would not have been done up in such exact imitation of the genuine. This person is tall and blustering, with a great Theatrical Swagger. He was recently known as a very poor player in Baltimore, under the musical cognomen of Jim Brown, and is about twenty five years of age. It is almost beyond a doubt that he is supplied with the Pills from a Druggist firm in this city, who have been heretofore notoriously connected with counterfeit medicines. As soon as proof is obtained, the fountain head of this nefarious business will be exposed, that the community may shun them as they would a serpent.

IN THE MEAN TIME THE PUBLIC ARE CAUTIONED

against buying WRIGHT'S Indian Vegetable Pills of any one who does not exhibit a certificate of agency signed by the agent for the New England States, and bearing date since January, 1840. Also take particular notice that the following wording is on the Boxes:—

WRIGHT'S *Indian Vegetable Pills* (Indian Purgative) of the North American College of Health.

THE INDIAN VEGETABLE PILLS are a certain cure for disease in its every variety of form, because they thoroughly cleanse the stomach and bowels, induce a proper discharge by the lungs, skin and kidney, and stimulate the blood to purify itself. In other words they open all the natural drains, and leave NATURE (THE GRAND PHYSICIAN) free to drive disease from the body. The above outlets or drains, are the common sewers of the body, through which all morbid and corrupt humors (the cause of disease) are carried off and so long as they are all kept open, and discharge freely their allotted portions of impurity the body will continue in health; but when from eating improper food, breathing impure air, sudden transitions from heat to cold, over exertion, or any other cause, the bowels become costive, the pores of the skin become closed of the kidneys fail to perform their functions properly, the impurities which should be drained from the body by those outlets will be retained, and continue to accumulate until the body becomes literally loaded with disease.

The above pills may be taken at all times, and under all circumstances, with perfect safety. They suit all complaints and all ages, and are as natural to the human constitution as food, consequently they can never injure even the most delicate. Like our food they are digestible; therefore they enter into the circulation, and impart an energy to the blood which enables it to flow with freedom quite to the extremities, and consequently to keep the pores of the skin open. They are true and perfect purifiers of the blood; because they drain all corrupt humors from that life giving fluid. They impart strength and vigor to the whole system, and their effects are always beneficial; because they only remove those humors which are opposed to health. They aid and improve digestion, and sound sleep follows their use; because they cleanse the stomach and bowels of their slimy humors which not only irritate and excite the nervous system, but paralize and weaken the digestive organs. In short they possess all the good properties that can be claimed for any medicine; and what is very remarkable, it is utterly impossible to use them without benefit.

Price 25 cents per Box, with full Directions.

☞ Office and General Depot for the New England States, No 198 TREMONT STREET, near Court street, Boston.

☞ The Regular appointed Agents can receive their supplies of the above popular Pills, as heretofore, from the ONLY OFFICE and GENERAL DEPOT for the New England States, 198 Tremont street Boston.

☞ Pedlers or travelling Agents are not allowed to sell the Genuine Indian Vegetable Pills, therefore never purchase from them, for if you do you will be sure to obtain a DANGEROUS and Counterfeit article.

NOTICE OF FORECLOSURE.

THE subscribers hereby give notice that they claim the following described real estate by virtue of a mortgage deed from John Leighton then of Lincoln, in the County of Penobscot, to Edward Smith and Samuel Smith of Bangor, in said County, and their assigns, dated May 25th, 1835, and recorded in the Registry of Deeds for said County of Penobscot, Book 58, Page 158. Said mortgage is conveyed by the said Edward and Samuel Smith to the subscribers by their deed of assignment, dated August 15th, 1840, and recorded in Book 117, Page 21, being one undivided equal half part of lots numbered 13, 14, 36, 122, 144, 130, 143, 129, 128, 127, 139, 140, 153, 151, 154, 145 and 146, in Indian Township, number one, in said County of Penobscot. And that the condition of said mortgage deed is broken, the subscribers, therefore, claim to have possession of the said mortgaged premises to foreclose the same for breach of the condition of said mortgage agreeably to the statute in such case made and provided.

JOSIAH TOWLE,
SOLOMON PARSONS.

Bangor, Sept. 22, 1840.

LEMON SYRUP.

A Superior article, made from the pure juice of the Lemon, and warranted to contain nothing injurious; Manufactured and sold by the gallon or bottle, by G. W. LADD,

June 11 Druggist and Apothecary.

MORTGAGEE'S NOTICE OF FORECLOSURE.

WHEREAS Joseph Emery of Dixmont, in the County of Penobscot and State of Maine, on the seventh day of July AD 1837 by his mortgage deed of that date, and recorded in the Penobscot Registry of Deeds, Book 117, Page 257, conveyed to the subscribers, Daniel Wingate, then of Hampden, in said County of Penobscot, and now of Shokokon, in the State of Illinois, and Hannah Wingate, being then of Bangor, County of Penobscot, and now of said Hampden, in fee & in mortgage, a tract of land, situate in said Dixmont, containing about eighty-four acres, formerly occupied by Edmund Wingate and is bounded on the North by land of William Tasker and Deacon Tasker, on the North by land of Friend Drake, on the West by the town road, and on the South by the town line between Dixmont and Jackson. And also by the same deed, the said Emery conveyed to the subscribers one undivided fourth part of forty-three acres of land, situate in said Dixmont, being in common and undivided with Friend Drake and John and Lydia Wingate, and adjoining to the tract of land above described, excepting and reserving from the above grant all easements and privileges which Edmund Wingate has granted to Samuel Drake or to any other person to go on the above premises for the purpose of obtaining water or for any other purpose. The subscribers allege that the condition of said mortgage deed has been broken and that by reason whereof they claim to foreclose the same, and hereby give public notice to all concerned of their intention so to do.

DANIEL WINGATE.
HANNAH WINGATE.
By their Attorney, JOSIAH HILL.

DR. SEARS' UNIVERSAL SANGUINARIAN—OR BLOOD-ROOT PILLS.

THE pretence that any medicine is nearly an "infallible cure" for all diseases "that flesh is heir to," whatever their character, is a flagrant imposition upon the public confidence, and a most wicked outrage upon the generous sympathy that suffering humanity justly demands of us. Yet the very frequency and boldness of these impositions so eminently cruel to the unfortunate, furnish sound ground for presenting the public a remedy that may be intelligently appreciated and relied upon. That powerful medicinal agent the Blood Root, is the basis of the Universal Sanguinarian Pills; and all the materials are drawn from the Vegetable Kingdom, the grand source of support to animal existence. But in the combination, the different ingredients are so blended and modified as to give the compound a remarkable advantage over the simples, and it is believed over all other medicines. When it is considered that nearly all diseases, chronic and acute, are connected with a disordered action of the stomach and bowels, and that in most instances, this is superinduced by disorder of the Bile, or Gall, which is the natural physic of the system, and when it is farther considered that these Pills act with singular power upon these many organs, and through them upon the blood and entire physical economy, sober reason must justify the assertion, that this valuable discovery furnishes a remedy of rare efficiency in all curable cases of disease; and this deduction of reason is abundantly corroborated by experience. This medicine harmonizes with the laws of life, inspires and strengthens nature, and works its wonders, by generously cheering her on to a triumphant conflict with the obtrusive agents of disease. It is offered for general use, and as a safe and most valuable family medicine. Safe, not because it does nothing, (like many contemptible nostrums of newspaper celebrity, which by occupying the place of efficient remedies, are often fatal) but safe, because it aids and co-operates with nature, instead of setting her aside and violently attempting to perform her work by dangerous foreign agency.

All orders promptly attended to by BLASDEL & THURSTON, East Thomaston.

WAR! WAR! WAR!

THE Wig Makers have declared hostilities against our neighbor, Dr Jayne, on account of his Hair Tonic which is knocking all their business into a cocked hat. Old and young, gentlemen and ladies, old and young, are flocking to the Doctor's standard. Heads long divested of even the first rudiments of hair, after using his Hair Tonic, soon appear with new and flowing locks, which Absalom himself might have envied. Beardless boys are seen with large and bushy whiskers, and the ladies smile again through their own raven ringlets, more bewitching than ever. Bald heads are doffing their wigs and throwing them to the moles and bats, while the Wig Makers stand aghast as they behold the demolition of their business.

What will be the consequence of this war we know not, as the Wiggers are outrageous, and the Doctor remains firm, and declares that "some things can be done as well as others," and that Bald Heads may as well wear their own hair as that of others.

JOSEPH HUSE, of Camden,
RUFUS K. GOODENOW, of Paris,
CHARLES TRAFTON, of South Berwick

HARRISON MEETING.

The friends of Harrison and Reform are requested to meet at the CITY HALL, THIS EVENING, at 7 o'clock. Several gentlemen from abroad will address the meeting

WHAT DO THE FARMERS SAY?

In 1837, about the time Mr. Woodbury told the deposit banks to discount liberally, labor and produce commanded high prices; and then Senator Benton, in a letter to certain citizens in Lancaster, Ohio, in the expectation of making political capital out of it, talked about the "prosperity of the producing classes." Mr. Van Buren's papers throughout the country then published this letter. To refresh their memories we will quote the following passage from it:—

"WHAT WOULD THE FARMERS NOW SAY TO A RELAPSE FROM PRESENT PRICES, TO THOSE OF 1825 '6 '7 '8, WHEN FLOUR WAS FOUR OR FIVE DOLLARS PER BARREL, AND EVERY THING ELSE IN PROPORTION?"

The wages of labor and the prices of the productions of the soil have relapsed not only to those of 1825 '6 '7 '8, but have fallen far below them. And what do the Farmers say? Why, they tell this backing and filling administration, which, in 1837, took credit to itself for inflated prices, and which now claims the support of the people, because its policy will cut down prices, that they will have no more of its financiering. They say of Benton, Woodbury and Van Buren, as Macbeth said of the witches:

"Then be those *juggling fiends* no more believed,
That palter with us in a double sense,
Keeping the word of promise to the ear,
To break it to the hope."

The farmers say, "we will have a change;" and as a slight indication that they will *do* as they say, we have the *fact* that out of eight States that have voted since the Sub-Treasury bill became a law, *five* have gone against Martin Van Buren, and given an aggregate majority of more 40,000 votes in favor of Harrison and Reform. So much for what "the farmers say."

☞ There was a grand turn out of the Harrison men last night. The Hall was full to overflowing, and the people who crowded there were full of enthusiasm. The right spirit is up. Mr. Holmes made a very interesting address, and related many startling facts. He was listened to with breathless attention for more than two hours. Before the meeting dissolved a number of Harrison songs were sung.

Meeting in Cumberland.—The friends of Harrison and Reform in Cumberland are to have a great gathering in Portland on the 26th inst. Gen. JAMES WILSON, of New-Hampshire is to be present, and will deliver a political address on the occasion, and addresses are expected from other distinguished men.

There are many individuals in this city and the river towns, who we doubt not would like to attend this meeting. Cannot the Steamer Bangor arrange it so as to leave here a day earlier? What say?

☞ The Whigs of Louisiana are preparing a costly National Banner, which is to be awarded to the State that gives, in proportion to its population, the largest majority for Harrison, in the approaching contest.

☞ The Mercantile Journal of Thursday evening, says:

"The Whig Republican Association of Charlestown, was addressed at Harrison Hall, last evening, by Mr Seyward of Bangor, in an eloquent and spirited address, in which he exposed in the most clear and convincing manner, the corruption and anti-democratic assumptions of power on the part of the present administraion.

Correspondence of the Portland Advertiser.

AUGUSTA, Oct. 10. 1840.

GENTLEMEN: The greatest farce that was ever enacted in the annals of legislation came off this afternoon in the Hall of the House of Representatives. The facts are these: On Thursday evening the people met together at the State House to take into consideration an infamous address signed by the Van Buren members of the Legislature, containing the most gross and false charges and allegations against the whole Whig party such as "having British gold, "fraud at the ballot boxes," and other libels of an infamous character. During the evening Mr. Otis of Hallowell stated that he had in his possession a letter giving a plan of organization adopted by the Van Buren members. The reading of the letter was loudly called for from every part of the Hall. It was read and produced a deep sensation. Mr Otis stated that the letter came into his possession in an honorable manner; that it was placed in a position, whether designedly or not he could not tell, to meet his observation. On Friday Mr. Governor Houlton, introduced an order in the House for the appointment of a Committee to *investigate* the doings of the *Whig Caucus the evening previous* and to find out about the far famed letter. This afternoon (Saturday) the Committee have been in session in the Hall of the House of Representatives. Mr. Hill, of New Portland, was first called upon to tell what he knew about the letter. He detailed the contents as far as he could recollect them, to the *great amusement* of the audience. Next Mr Otis, of Hallowell, was called upon, and he stated the way and manner the letter came into his hands. Mr. Dumont was next interrogated. Mr. D. called upon the Committee in the first place to produce their authority to call upon him for a recital of what took place at a whig caucus. The Committee, on consultation, came to the conclusion that they had no power to compel any disclosure, but requested Mr. Dumont to state what he knew about the letter. Mr. D. stated that he never heard of the letter until he heard it read on Thursday Evening at a meeting of the *democracy*, which had been called to take into consideration the Van Buren Address—that the next evening at the office of the Journal, the letter was placed in his hands—that he now had possession of it—that a portion of the allegations he knew to be *true*, and he believed them *all* to be so—that he would furnish the Committee with an *attested* copy of the same, but that they could not be gratified with having the original—that the letter which related to the REVISED STATUTES was at their disposal then. The Committee then adjourned to meet again Monday afternoon.

Now, gentlemen, what will the people of this State say to their Representatives spending their time, and the money of the State, at the rate of $600 PER DAY, in investigating the transactions of a Whig Caucus?!

I will do justice by saying that a portion of the Van Buren members condemn in the most pointed terms the whole business, and say that the whole proceeding is eminently *ridiculous* and *absurd*.

A LOOKER ON.

AN APPEAL

TO THE

People of the State of Maine,

BY A PORTION OF THEIR FELLOW-CITIZENS, FROM WHAT IS STYLED "AN ADDRESS OF THE DEMOCRATIC MEMBERS OF THE LEGISLATURE TO THE DEMOCRATIC *PARTY* IN THE STATE OF MAINE."

[Concluded.]

This document proceeds on the democrats," meaning the Van Buren party, "regard all men "politically as equal, while our opponents are "the friends of monopolies and exclusive privileges!" Our glorious constitution recognizes the principle that all men are equal, and so do we; but Martin Van Buren has violated this principle of the constitution every day he has been in power. He holds only one part of the community worthy of holding an office. No matter what may be the merits of the incumbent, or the claims of an applicant, if he does not yield a ready obedience to his will, the incumbent is dismissed and the claims of the applicant are disregarded. Men whose political opinions do not agree with the party in power are held and treated as aliens and strangers. What then in practice is this theory of political equality? Tell us of monopolies—has not the administration monopolized for their own friends all the offices, and jobs and contracts? These are their "exclusive privileges." If these are not the "monopolies and exclusive privileges" refered to, what are they? Do banks come into the category? Is there a single individual of the members of the Legislature who bring this grave charge, who will say that he is opposed to all banks, or that he denies to the State the power to charter banks? Probably not one. Mr. Van Buren certainly does not profess to be so opposed. What then are these deemed "monopolies and exclusive privileges?" Are they Insurance Companies? Are they Canal or Rail-road Companies—acts of incorporation to build bridges across your rivers with the "exclusive privilege" of taking toll? Are they mill dam companies, manufacturing companies, navigation companies to fit out whale ships, or to run steam boats with the "exclusive privilege" of taking the fare? Are these, or any of these your monopolies, gentlemen? If this is your doctrine, then men of limited means cannot unite their small capitals to accomplish great and useful objects. Great works are to be the "exclusive privileges" of great capitalists. If you deny this and all these suppositions, then we have a right to suppose that the words are without meaning as here used, and only intended as bugbears with which to terrify the ignorant.

Let us take the next paragraph entire. It follows: "The democratic party are in favor of implicity & economy in the government, and of raising no more funds "from the people than are wanted for ordinary expenses "of the government. Our opponents, on the contrary, "have always been in favor of high taxes, collected through a tariff—have almost invariably voted for "extravagant appropriations, and manifestly regard a "public debt with great favor." It is no wonder this document was intended to be circulated in secret. Let facts speak—official tables, communicated to Congress by officers of the department. Read them Messrs. Editors and others—and then let us know whether you were imposed upon by others, or you intended an imposition upon the public.

Statement showing the amount of expenditures of the United States, exclusive of the public debt, for each year, from 1824 to 1837, inclusive stated in pursuance of a resolution of the House of Representatives of the 9th June, 1838.

For the year	1824	$15,330,144 71
Do	1825	11,490,459 94
Do	1826	13,062,316 27
Do	1827	12,653,095 65
Do	1828	13,296,041 45
Do	1829	12,000,160 64
Do	1830	13,229,533 33
Do	1831	12,[illegible] 00
Do	1832	16,516,388 77
Do	1833	22,713,755 11
Do	1834	18,425,417 25
Do	1835	17,514,650 26
Do	1836	30,868,164 04
Do	1837	*39,164,745 37

NOTE. The foregoing sums include payments for trust funds and indemnities, which, in 1837, were $[illegible] 610,404 30.

TREASURY DEPARTMENT,
Register's Office, June 27, 1838.

T. L. SMITH, *Register.*

*This sum is subject to small variation on the settlement of the accounts of the treasurer.

During Mr. Van Buren's administration, he has had a subservient majority in both branches of Congress, and his expenditures have been upon an average of years nearly three times as much as they were during the administration of John Quincy Adams; and yet we who oppose, and have denounced in every form this extravagance, and believe the public money to have been corruptly squandered, are represented as the advocates of "extravagant appropriations," and the people, no the party, are called upon to re-elect Mr. Van Buren on account of his "simplicity and economy." The table which follows, and which is from an official document presents another view of this matter.

Gen. Washington's eight years	$15,409,198 55.	$1,986,924 82
Mr. John Adams' four years	21,450,351 19.	5,362,587 79
Mr. Jefferson's eight years	41,476,728 68.	5,162,596 38
Mr. Madison's eight years	144,084,980 96.	18,005,617 00
Mr. Monroe's eight years	104,463,400 59.	13,057,925 07
Mr. John Q. Adams' four years	50,501,931 31.	12,625,478 38
General Jackson's eight years	145,796,735 00.	18,224,691 88
Mr. Van Buren's three years	111,406,962 00.	37,135,654 33
	635,493,284 18	

By Gen. Washington, eight years	36,092,934 92	4,511,619 61
By Mr. John Adams, four years	14,957,962 69	3,739,490 67
By Mr. Jefferson, eight years	65,196,398 53	8,148,299 82
By Mr. Madison, eight years	83,428,942 78	10,428,617 85
By Mr. Monroe, eight years	101,366,111 22	12,670,763 90
By Mr. John Q. Adams, four years	45,303,553 43	11,325,863 36
By General Jackson, eight years	64,195,398 00	8,024,392 25
	414,540,247 57	
Expenses as above	635,493,284 18	
Total	1,050,033,531 75	

*Jan. 1, 1829, the debt was $58,[illegible]02,135, which with interest to the time of payment, amounted to [illegible] about the sum mentioned.

If any doubt remains, look at the following table:

Expenses of collecting the Revenue. The following is authentic, being from the Report of the Register of the Treasury.

	receipts.	Expenses. collecting.
Mr. Adams' 4 years.		
1825	20,098,713 45	835,302 96
1826	23,123,741 75	829,099 48
1827	16,712,283 29	888,818 27
1828	23,205,523 94	932,023 60
Gen. Jackson's last 4 years,	receipts	Expenses collecting.
1833	29,032,508 91	1,351,543 97
1834	16,214,957 16	1,264,545 27
1835	19,391,315 59	1,284,997 60
1836	23,409,010 53	1,397,469 10
Mr. Van Buren 1 year.		
1837	11,169,290 34	1,592,947 84

It will be seen that the average cost of collecting under Mr. Adams's administration was about 4 per cent, under Gen. Jackson's about 5 per cent, and under Mr. Van Buren's about 14 1/2 per cent.!!! For collecting 23 millions, under Mr. Adams' administration, the cost was $932,093 03 for collecting less than HALF the sum, under Mr. Van Buren's, the cost was $1,592,937 84!!!

"Assume a virtue, if you have it not."

Having taken "a glance" at what those gentlemen pretend are the characteristics of their party, and shown how little the *practice* of Martin Van Buren and his office-holders agrees with this theory, we might be led to the conclusion that this paper was intended to be a bitter sarcasm upon his administration, if their names were not appended to it. But they have undertaken to show what they say are the principles and what will be the practice of Gen. Harrison and his friends, when they come into power. To this charicature we will reply in their own chaste and elegant language: "If they have believed them, they deserve our pity; if they have not, they are worthy only of our contempt." Sometimes they have mingled together what they call the principles of both parties, and signified the whole with what they style "ancient federalism," that it is as difficult to determine which is which as it would be to determine between the practices of "ancient federalism" and modern Van Burenism. It would have been more to their credit, if they had confined themselves to what they profess, and to a defence of what their party practices. But disappointment needs soothing, and railing is sometimes a relief. If they are satisfied with this exhibition of spleen, concocted from the exploded slanders of a venal press, we ought not, perhaps, to complain. A short notice, however may be required.

We are charged with being in favor of internal improvements and a high tariff. Upon the tariff question, the friends of Gen. Harrison are not united; and upon the same question the supporters of the present administration are divided. The greater portion of both believe that it is sound policy to protect the industry of the country against the competition of the great capital and cheap labor of Europe. So far we are in favor of the policy. The duties are necessary, too, for the support of Government. On the other hand, the nullifiers of the South—the friends and supporters of Mr. Van Buren are opposed to a tariff and duties in any form; and have announced the doctrine on the floor of Congress, that the Government must be supported by *direct taxes*. Mr Van Buren himself has always voted for a high tariff; he did so in 1824, and in 1828. What his views are now may depend upon the quarter from which he expects support, varying to meet any contingency. If his policy is dictated from the South, as the sub treasury bill seems to incidate, then the free laborers and producers of the country are to have no other protection than low wages and hard money prices will give them. In relation to internal improvements, no respectable politician ever advocated the doctrine of creating a national debt for that purpose. It is time enough to dispose of that question when another surplus arises in the national treasury. With this administration in power, that event is not likely to happen.

The next charge is, that the friends of Gen. Harrison "are in favor of establishing another great National Bank," adding to it sundry hard epithets, such as "buying up voters like cattle in the market" "Another *generator* of speculators." Why did they not charge the Whigs with the design of re-chartering the old bank? It was just as easy. But in the very next paragraph we have the following: "Again, the "federal party are in favor of taking the public "money, that which has been raised for the support of Government, and depositing it in banks, "permitting them to loan it out, and to take and "divide the interest among the stockholders." Well, gentlemen, this looks very much like a description of the pet bank system—the favorite measure of your favorite financier, General Jackson. How the Whigs, with Gen. Harrison, are to get along with both of these measures—a U. S. Bank and the pet bank deposite system—is a matter that might trouble the Whigs, though it seems not to have troubled these gentlemen. "Eternal progression," say they—you have only to imitate our leaders. When once chartered you can destroy your "great national bank," and then you are ready for the pet bank system; and if that fails to answer your expectations politically, you have left our last resource—in the elegant language of this never-enough-to-be-admired document, you "can become the victims of a set of speculators and loafers." But to be serious on a subject that demands seriousness. As a general proposition the friends of Gen. Harrison will not, in their financial policy, imitate their predecessors. They all believe it to be the duty of Government to secure a safe and uniform currency for the people as for the Government. If this cannot be done without a National Bank, and the representatives of the people grant a charter, having a limited capital, and established for a limited time, and guarded by all the restrictions with which a people jealous of their liberties could choose to surround such an institution, we have it from Gen. Harrison himself, that, like the republican Madison, he should not feel at liberty to withhold his approval. This is all that any man asks; and this, or something of the kind, the interests of the country and the voice of the people demand.

The last charge, of a design of the friends of Gen. Harrison to make their first measure the adoption by the General Government of the State debts, would be important if true. Nothing can be more painful to a man of delicate feelings than to charge another with falsehood. Much more painful would it be to intimate such a charge against these Van Buren members of the Legislature of Maine. Charity would attribute it to inadvertance, ignorance to any cause rather than a wilful perversion of the truth. If the charge had been a design to make the General Government responsible for all the individual debts of every person in the Union, there would be this to be said, that the Whigs never had denied such a charge. But in the case of State debts, this cannot be said. From the U S Senate to the last political meeting where it has been agitated, every Whig has denied that any such design was ever thought of. This these gentlemen must have known, or they are too little informed in political matters to have ventured even a *secret* address to their *political friends*. But this is urged in the most obnoxious manner, and in staring capitals we are told that it would "effect a re-colonization of this country to England." How does this agree with the high tariff charge? The tendency of that would be to make us independent of British manufactures. Truth is always consistent. If other answer were necessary than a simple reference to the fact that in all places and under all circumstances the Whigs have denied any knowledge of any design to adopt the State debts, we can reply to it by another reference to a higher authority—to the Constitution, the charter of our rights; without an alteration of this, no adoption could avail any thing. Mr Senator Grundy first introduced this subject to notice in the Senate. It was a piece of Machiavelian policy, such as is sometimes practiced by an obnoxious monarch, who, through his policy, will get up a sham plot of treason, and then charge it upon some who are too stubborn to yield to his will, and thus make them odious or perhaps cut off their heads. The imitators of European monarchies may have learned other lessons in that school than the best mode of reducing the people to poverty by introducing into the country the policy of an exclusive metallic currency.

These gentlemen complain that their opponents have misrepresented the "Independent Treasury bill." This may explain what before seemed inexplicable—how it was possible for honest men to support an administration after it had forced through Congress a measure so destructive as we believe this bill is to the dearest interests of our common country. Either they are ignorant of its provisions, or we do not understand them. Upon one point all fair men must be agreed, that from some cause or other the condition of the country is in that state when a change of policy can do us no injury, and may be an improvement. The time has been when the country was prosperous—when industry received the reward of its exertions—when well directed enterprise was crowned with success—when the currency of the whole country was in a sound state. That time has passed. If the millions of people of this country cannot fully comprehend the causes of the derangement of business, the workings of a complex system, still the millions can see and *feel*. Hunger and distress is the same to the uninformed as to the learned physician who can explain all the functions of the body. It is denied by these gentlemen that the operation of this bill will be to reduce the price of labor and the value of the products of labor. As they understand it, it is said to be simply "to manage "the financial concerns of the Government as "every town, every county, and about every "State in the Union manage their own affairs." Now here is an explanation, an illustration by analogy, of the "Independent Treasury bill," which all can comprehend. All know how the financial affairs of their own town are managed; the taxes are assessed, the collector notifies the rate-payers, and calls for the amount; and *receives it in such money as is current*, whether it be bank bills or specie. He pays it over to the treasurer, who, as a matter of convenience, usually deposites it in a bank, if one happens to be in his town, and if not keeps it by him, and pays it out in checks on the bank where deposited, in such money as he received from the collector. In all this in what does it agree with the "Independent Treasury"? That provides that one quarter of the revenues of the Government shall be paid in *specie* this year—one half next year—three quarters the year after and after that *all the dues of Government*, whether arising from duties, from sales of lands, or from direct taxes, *shall be paid in specie*. And this is to kept in vaults by the receivers until required to be paid out. To make this illustration a parallel case, let us consider the effect which a vote of the towns in this State would have, that the State, county and town taxes, amounting in all to more than 2,000,000 dollars, should be paid in specie, and that no collector should receive any other money in payment for taxes. What would be the effect of such a measure upon the business of the State? The banks would stop issuing their bills, that they might not be immediately returned for specie. This would make money scarce. This would check the operations of business. Money being scarce and little business doing, would not this diminish the demand for labor; and the demand for labor being diminished, the wages of labor would be reduced. But if the system was pursued the banks now dividing less than the income of capital invested in almost any other business, and taxed higher than any other the effect would be that all the banks in the State would close up their business, and then our only currency would be the bills of banks out of the State and specie—both of which would be more difficult to obtain as the demand for them increased. The banks of other States would not loan to us, for our money being required to pay taxes, and that in specie, they would be run upon for specie. We should soon then be left to our own folly; and after sufferings and sacrifices, beginning gradually, and ending in absolute ruin to many, and to the poor, those who have the least to lose, first, and in distress to all, the system would have to be abandoned. So much for the illustration of this "simple financial measure." But this bill has another and still more dangerous operation. Specie being the acknowledged foundation of our mixed currency, which consists of specie, and bank bills redeemable in specie on demand, whoever is the holder or has the control of the largest portion of the specie of the country, holds in his hands the money power of the nation. This bill places that power in the Executive. His agents, the receivers, hold the specie, and they are under the control of the Executive. It is true, the law places restraints upon the Executive; but there is a power above the law, and where that is the case, the people may well fear that it may be abused. Men may be jealous of their liberties without imputing an immediate design to destroy them. An opportunity opened is sufficient cause for a waening distrust. This is the reason of the alarm which spread through the country when the standing army bill was promulgated. It is an indirect attack that endangers the constitution. When it is publicly avowed, the danger is over. It is a masked design, under plausible pretences, which will destroy our liberties by gradually undermining them supposes, if we ever lose them.

The importance of the subjects alluded to in the address of the Van Buren members of the Legislature, and the extraordinary manner in which it was got up and sent forth, will be my apology for the length of this appeal. The comment occupies more space than the text. But the subjects are not exhausted. It would have been interesting to refer more fully to the principles which will guide the administration of Gen. Harrison. But we must refer to his own writings and speeches—particularly to the one recently delivered at Dayton. He is honest whatever he promises he will practice.—Of one thing, the people may rest assured, that he will not copy the example of the present administration. He will not indulge in extravagant furniture, purchased at the public expense—he will not ape the measures or habits of foreign courts; and last of all, will he consult and quote for example the monarchies of Europe in their financial measures that great engine of despotism by which they hold in thrall their miserable subjects. It will be *glory enough* for him *not* to walk in the footsteps of his predecessor."

If what these gentlemen had seen fit to address to the public had been a piece of argument, it would matter little to the public what it was. If it was a statement of facts, supported by proof, it would be equally immaterial what form it assumed. But as this document is neither a course of argument, nor a statement of facts supported by proof, the proceeding looks like a political stratagem, adopted first by a few of the unscrupulous leaders, then by caucus drilling, aided by party discipline, the more moderate were forced to give their signatures, and thus lend a fictitious importance to an effusion which otherwise would be unworthy of serious notice. Many who have read this document, consider it such an insult to the understandings of those to whom it is addressed, that it would carry with it its own cure—that any man to whom a copy was sent with a view of its influencing his opinions would consider it a reproach upon his intelligence. This may be a correct view; but still the pernicious example itself would deserve reprehension. If the prudence of reserve and decorum dictates silence in some circumstances, in others, prudence of a higher order demands of us to speak. If what has been said in this appeal has reason and truth for a foundation, let reason and truth have their proper influence. This is addressed to the candid and thinking part of the community. To the drummers and trumpeters of *the party* this is not addressed. They would drown with their voice the dying groans of the freedom of their country, so long as their own selfish schemes were accomplished.

In taking leave of the gentlemen who signed this address, they will pardon us, if in commenting upon this document, we have been constrained in self defence to use language, which will not commend itself to their feelings. They must feel at that when they descended from the dignity of the Legislator to act the part of a political partizan, they forfeited a portion of the respect which attaches to the former character. That respect can be recovered. Come out boldly and say that your judgments were not in the act. That the signing of it was made a test of party allegiance, and you dared not to refuse. Discard the leaders who have placed you in this position before the public, and let it appear that you are determined to act for yourselves; and then if injustice has been done you, it can be shown. You will be more ready to make you amends than the Whigs of Maine.

DIED.

In this city, 2d inst. Charles B. only child of Mr. Elijah Toothaker aged 9 years. Our sympathies are claimed for fond parents who are bereft of their idol. Still more in the present case when the deceased was a boy of unusual promise manly, mature, affectionate, conscientious noticed and beloved by all who knew him.—[Com.

In Natick, on Wednesday evening last, of typus fever, Moses P. Cleaveland, M. D. eldest son of Professor Cleaveland, of Bowdoin College, aged 33.

Miss Lucy, Miss Ludlow.

After which, the admired Comedy, called

A DAY AFTER THE WEDDING.

Col. Freelove, Williamson.
Lord Rivers, J. F. Adams.
Dance, Miss Ludlow.

To conclude with the farce of

THE ACTRESS OF ALL WORK.

In which Miss E. Ludlow will sustain six characters.

PRICE OF ADMISSION. Boxes 50c—Pit and Gallery 25c. Doors open at 6 1/2 o'clock performances commence at 7. Good order will be preserved.

NEW GOODS FROM AUCTION.
AT THE CLOTH AND DRY GOODS STORE,
☞ NO 16 MAIN STREET.

THOMAS A. WHITE & CO. have just returned from New York and Boston and have commenced opening a very large Stock of Dry Goods, purchased at package Auction Sales and are now offered for sale at great bargains for cash. In particular the most choice and extensive assortment of Broadcloths and Cassimeres the market affords, embracing the best English, German and American Manufactures, all of which will be sold at a small advance from the package Auction prices.

N. B. As impositions have been practised upon our customers at a Store opened by one J. C White next door to ours by representing that they were in our Store, and they, upon those representations made purchases, as they supposed of us, with which they were very much dissatisfied we wish our customers to take particular notice of the Store and No. which is 16, and next above the establishment above alluded to.

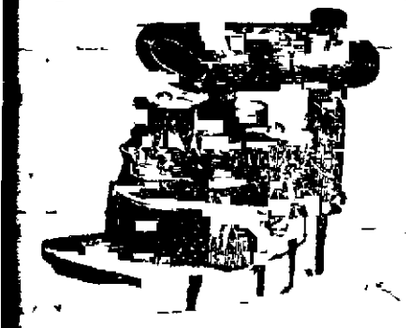
STOVES! STOVES! FOR 1840.



Ranger's Elevated Oven Rotary Cooking Stoves

AGAIN presenting this Stove to the public, it is useless to name the many testimonies I have received in its favor as it only requires examination by the purchasers to convince them of its decided superiority of all others which I will warrant and defend, and for the safety of all those who may see fit to make trial of them, that I will warrant them susceptible of performing more cooking with less fuel and trouble than any other Stove that can be produced in America and with more ease and convenience owing to the spacious oven being placed directly over the boilers which admits of using the heat for baking, that would otherwise escape without any particular benefit and without the least injury to the boiling, broiling or roasting parts all of which may be performed at the same time to great perfection They consist of five sizes viz No 0 1 2 3 and 4
To convince the public of the above facts they are respectfully solicited to call and examine the above named Stoves, whether wishing to purchase or not where may be found as good and general assortment of Cooking, Box and Parlor Stoves as in the city— Also, Fire Frames, Oven Ash Pit and Boiler Mouths, Caldron Copper and Brass Kettles Japan Ware, Tin and Pewter Ware and all kinds of Stove apparatus, Sheet Zinc Sheet Iron Axes, Roughs Coffee Mills &c The above will be sold for cash country produce or lumber, as cheap as can be purchased in the city
HENRY A. WOOD.
No 0, 3, Broad Street
Bangor, Sept, 22, 1840. w3w

WHITWELL'S ORIGINAL OPODELDOC.

PRICE reduced to 50 cents or $4 per dozen
This is done to throw at once and forever out of use and memory the innumerable wretched imitations of the above, prepared by different individuals under the name of 'Liquid Opodeldoc'
The genuine is infallible in Bruises, Sprains, Rheumatism, Crack Chilblains, Chapped Hands &c, and is recommended by the late Dr S. L Mitchell M D L L D, of the N Y, College of Physicians.
Be firm, and insist upon receiving Whitwell's Opodeldoc, or that kind will be pressed upon you which affords the greatest profit to the vender
AROMATIC SNUFF, for Headache, Catarrh dizziness drowsiness, hypochondriasis of the weight, &c This most fragrant, grateful and soothing preparation, mostly made from roots and aromatic herbs, has been in use for more than a quarter of a century It is strongly recommended for those purposes by the late Professor Water of Cambridge, and many others. Price 50 cents a bottle Where also is for sale
WHITWELL'S DETERGENT BITTERS, for Jaundice, Debility, Drowsiness, Depression of appetite weakness of the Stomach and all complaints incident to the approach of warm weather equal to any in the U, States Price 12 1 2 cts.

Sept E F DUREN

A CHANCE OFFERED FOR GOOD BARGAINS.

INTENDING to leave this place for Bangor I now wish to dispose of my Real Estate in or near Bangor or for cash or personal property Said Estate consists of the following parcels viz
One hundred acres situated about one half of a mile below the Village on and south of Sebec Stream There has been a road laid out through it leading to Bangor from Sebec and the towns north There are there two saw and grist mills and a convenient House and other buildings, one of the barns 50 by 50 feet recently erected and finished this season in a substantial manner and well filled with the produce of the farm this season Said farm is also well stocked with cattle horses sheep &c, farming utensils Household Furniture &c &c with a good well of water under cover
Fifty acres of land about one third of a mile from the Village on the east side of the road leading to Bangor, a part of the same is cleared the balance well wooded with a large brook running through it
Also seventy acres south and near the Village on the east side of the road running to Bangor with one hundred good thrifty young Apple Trees thereon that produce about 20 bushels of Apples a year
Two hundred acres do commencing at the Village on the west side of the road leading to Bangor extending on said road about a third of a mile and back up the Sebec Pond There is on said land at the Village a double tenement House recently finished with out buildings &c &c which I have divided into Village Pasturage and Wood Lots
On the west side of the road, about half a mile from the Village there is a parcel of land lying in the above described tract containing about twenty five acres with a convenient house out houses barn &c and one hundred Apple Trees that produce 50 bushels of Apples a year Said tract is pleasantly situated with wood &c and is offered for sale with the other described parcels or in small lots to suit purchasers
For further particulars enquire of E & J Morrill Esqrs Sebec or the subscriber at Sebec

NEW AND IMPORTANT DISCOVERY
DR. PHELPS' COMPOUND
TOMATO PILLS,
[ENTIRELY VEGETABLE]

A New and Invaluable Medicine for all Diseases arising from Impurities of the Blood, Morbid Secretions of the Liver and Stomach, also a

Substitute for Calomel;

as a Cathartic in Fevers and all Bilious Affections

THESE popular Pills being a combination of a newly discovered Alcoline substance extracted from the TOMATO PLANT with other vegetable substances which have been found to modify and diffuse its effects are believed to be the best Alterative and Cathartic Medicine ever discovered They have been abundantly and successfully tried and have received universal approbation for Bilious Dyspepsia Jaundice Bilious Diseases Gravel Rheumatism Coughs, Colds Influenza Catarrh, Nervous Diseases Acid Stomachs Glandular Swellings of all kinds, Costiveness, Cholic, Headache &c

They are an antidote to Contagious and Epidemic diseases, prevent the formation of Bilious and Liver affections Fever and Ague &c, in those who reside in hot climates and low and marshy countries and are the best Cathartic that can be used for those localities Seamen will find them an infallible remedy for the Scurvy, and Travellers the best medicine they can use to counteract the dangers of exposure in unhealthy climates For ordinary Family Physic they are universally approved, as the best ever offered

These Pills have a powerful and salutary operation upon the Glandular System removing all obstructions from the Gland wherever situated, Scirrhosities and Scrofulous Taints in all their forms and of persevered in no case of Scrofula, however severe can resist its influence It is in their operation on the Glandular System, that their effects are so peculiar and potent and so nearly resemble that of Calomel In fact, the Tomatine has all the Alterative Deobstruent and Cathartic properties of Calomel, without ever producing unpleasant or injurious effects under any circumstances, either from exposure to cold or wet; on the contrary, the Compound Tomato Pills are the best remedy ever known to counteract the effects of Mercury, completely eradicating every particle of it from the system, and renovating the constitution broken down by its use, which it does by correcting the state of the blood, and through that correcting the morbid secretions of the glands, and restoring them to a healthy and their own proper action Its effects are analogous to Sarsaparilla and Blood Root and in its combined action in the ingredients composing the Pills, it exerts a universal action peculiar to itself

The peculiar virtues of the Tomato Plant, have for a long time attracted the attention of the Medical profession and the Public, and a lively interest has recently been directed to the future development of its active powers and its Antibilious and Alterative qualities, which the Proprietor is now happy in being able to gratify and presents his Pills to the Public, with the full confidence of their being the most safe and valuable remedy ever discovered adapted to all cases where nature is disturbed and when any of the functions do not perform their natural or healthy action

Numerous certificates of cures, from those who have taken them, and the testimony of several Physicians who have prescribed them, all concur to corroborate this opinion The rapidly increasing demand for, and the universal approbation bestowed upon them, is an additional evidence of their merits and usefulness

In presenting this article to the public, the Proprietor was induced by the hope that a medicine prepared with much care, and strict regard to the Chemical and Therapeutic properties of its several ingredients should take the place of the thousand and one irresponsible nostrums of the present day, with which the country is deluged and from the favor already bestowed upon it by physicians and others he feels justified in expecting this result.

Often have the cures performed by this medicine been the subject of editorial comment, in various newspapers and journals and it may with truth be asserted that no medicine of the kind has ever received testimonials of greater commendation than are attached to this.

Females from forty to fifty years of age will find them a powerful assistant to nature, in the important change in the functions of the system removing all humorities to Cancer, glandular swellings &c, and assisting to establish that new action in the animal economy which nature often fails to do None should avoid a free and continued use of them, if they wish to escape a long train of incurable maladies For this purpose one should be taken every night and morning and continued as long as any unpleasant symptoms remain

For that congested and deranged state of the system which occurs in the commencement of Spring and Summer these Pills of are particularly applicable in preventing Rheumatism, Coughs, congestion of the lungs &c, and have prolonged many a life that otherwise would have been a sacrifice to the changes of the season

Those persons liable to sore throats, swelling of the glands coughs, and other symptoms indicating Scrofula or Consumption should take warming in season, and embrace a remedy, which, while it is searching out and eradicating disease, makes no deductions from the vital powers of the system

As a Dietetic or Dinner Pill one taken half an hour after dinner will sufficiently stimulate the digestive powers of the stomach to a healthy and regulated action and they are found extremely serviceable for those who indulge in long dinners, or late suppers, or immoderately in desserts or fruit

☞ For a full account of this interesting discovery testimonials mode of operation, &c, see pamphlets, in the hands of all who sell these Pills

☞ Enquire for PHELPS' TOMATO PILLS and be particular to observe that the label is signed G R PHELPS, M D Price 37 1-2 cents, with full directions accompanying each Box

From the Boston Morning Post

New Medicine An Alkaline principle called Tomatine has been discovered in the Solanum class of plants particularly in the Tomato which promises to be of peculiar service in Lung Affections, Scrofula and Glandular obstructions particularly of the Liver also an antidote to Mercury It is embodied in the Compound Tomato Pills, which are truly worthy of a trial

From the Patriot & Democrat

PILLS Unlike the numerous speculations of the day, there is one medicine which deserves the popularity and patronage it is receiving We allude to Dr Phelps' Compound Tomato Pills Judging from the patronage they are receiving from the Medical Faculty, and the approbation of those who have used them we should expect they would supercede all others in use, as a family medicine Being introduced by a respectable and practical member of the Medical profession whose character in this vicinity is a sufficient guarantee for the character of his medicine we are enabled thus confidently to speak of it, and fully believe it is entitled to the confidence of the community

From the N Y Transcript

COMPOUND TOMATO PILLS

Dr Phelps, of Hartford has brought into successful use a most invaluable medicine in the Pill form the chief component of which is derived from that healthy and pleasant vegetable the Tomato As this plant is known to possess medicinal virtues of a high order, as well as a large amount of nutriment, so the medicine into which it is compounded, is known to be powerfully available as a curative remedy in morbid secretions of the Liver and Stomach impurities of the blood and diseases of a bilious type generally It is an excellent substitute for calomel, as an anti bilious and cathartic medicine without its injurious properties, and has been found extremely efficacious in the cure of a long catalogue of diseases Having adventured upon the use of this medicine ourselves we cordially recommend it to others

BALDNESS.
A BEAUTIFUL HEAD OF HAIR

Is the grandest ornament belonging to the human frame How strangely the loss of it changes the countenance, and prematurely brings on the appearance of old age, which causes many to recoil at being uncovered and sometimes even hurts sensitive society to avoid the jests and sneers of their acquaintance; the remainder of their lives is consequently spent in retirement In short, not even the loss of property fills the generous thinking youth with that heavy sinking gloom as does the loss of his hair To avert all these unpleasant circumstances, OLDRIDGE'S BALM OF COLUMBIA stops the hair from falling off on the first application and a few bottles restores it again It likewise produces eyebrows and whiskers, prevents the hair from turning gray makes it curl beautifully, and frees it from scurf Numerous certificates of the first respectability in support of the virtues of Oldridge's Balm are shown by the proprietors.

Read the following

ROBERT WHARTON Esq late Mayor of Philadelphia, has certified, as may be seen below, to the high character of the following gentlemen

The undersigned do hereby certify that we have used the Balm of Columbia discovered by J Oldridge, and have found it highly serviceable not only as a preventive against the falling off of hair, but also a certain restorative

WM THATCHER, Sen, Methodist Minister in St George charge, No 86 North Fifth st
JOHN P INGLIS, 331 Arch st
JOHN D THOMAS M D 163 Race st
JOHN S FUREY 101 Spruce st
HUGH McCURDY, 343 South 7th st
JOHN GARD, Jun 123 Arch st

It will certainly raise its virtues in the estimation of the public when it is known that three of the above signers are more than 50 years of age, and the others not less than 30

[From the Mayor]

COMMONWEALTH OF PENNSYLVANIA, City of Philadelphia

I, ROBERT WHARTON, Mayor of said city of Philadelphia, do hereby certify that I am well acquainted with Messrs J P Inglis John S Furey and Hugh McCurdy, whose names are signed to the above certificate that they are gentlemen of character and respectability and as such full credit should be given to the said certificate

In witness whereof, I have hereunto set my hand, and caused the seal of the city to be affixed, this sixth [L S] day of December, &c

DR. SHUBEAL HEWES'
CELEBRATED RHEUMATIC,
NERVE AND BONE
LINIMENT,

Applied morning and night has cured hundreds It gives relief in the swelling of the glands of the throat, and relieves the numbness and contractions of the limbs, and will take swellings down, and inflammations out of the flesh, rheumatism bruises and sprains It gives immediate relief, it strengthens weak limbs, and extends the cords when contracted A few drops on sheep's wool applied to the ear of deaf persons, will, by constant application cause them to hear in two months' time

Sold by the Druggists in Bangor and throughout the State Address COMSTOCK & CO New York

HEADACHE

DR E SPOHN, a German physician of much note having devoted his attention for some years to the cure and removal of the causes of the NERVOUS AND SICK HEADACHE, has the satisfaction to make known that he has a remedy which by removing the causes cures effectually and permanently this distressing complaint There are many families who have considered Sick Headache a constitutional incurable family complaint Dr S assures them that they are mistaken, and far from being under distress which they might not only alleviate, but eradicate by the use of his remedy.

It is the result of scientific research and is entirely of a different character from advertised patent medicines and is not unpleasant to the taste

Sold by every Druggist in Bangor, and throughout the State Address

Dr. Jayne's Expectorant.

THIS invaluable medicine is daily effecting some of the most astonishing and wonderful cures that have ever been known All who have ever used it for Asthma Cough, Spitting of Blood, Hooping Cough, Croup or Hives, Consumption, Chronic Pleurisy Hoarseness, Pain and Soreness of the Breast, difficulty of Breathing, and every other disease of the LUNGS and BREAST can and do attest to its usefulness BRONCHITIS, a disease which is annually sweeping thousands upon thousands to a premature grave, under the mistaken name of CONSUMPTION, is always cured by it The usual symptoms of this disease (Bronchitis) are Coughs, Soreness of the Lungs or Throat Hoarseness, Difficulty of Breathing, Asthma Hectic Fever, a spitting of Phlegm or matter and sometimes blood It is an inflamation of the fine skin which lines the inside of the whole of the wind tubes or air vessels, which run through every part of the Lungs This Expectorant immediately suppresses the Cough Pain, Inflammation, Fever and Difficulty of Breathing and produces a free and easy Expectoration and a cure is soon effected

It always cures ASTHMA two or three large doses will cure the CROUP or HIVES of Children in from fifteen minutes to an hour a time It immediately subdues the violence of HOOPING COUGH and effects a speedy cure Hundreds who have been given up by their physicians as incurable with "CONSUMPTION," have been restored to perfect health by it

REV JONATHAN GRIMES, D D PRESIDENT of GRANVILLE COLLEGE, Ohio, says he was laboring under a severe cold cough and hoarseness, and that his difficulty of breathing was so great that he felt himself in imminent danger of suffocation but was perfectly cured by using Dr Jayne's Expectorant Mrs Dilks of Salem N J was cured of Asthma of years standing, by using two bottles of this medicine Mrs Ward also of Salem was cured of the same complaint by one bottle A young lady, also of Salem who was believed by her friends to be fast gone with Consumption, was perfectly restored by three bottles Dr Hampton of St James South Carolina was greatly relieved by a cough, hoarseness and soreness of the lungs and on using a bottle of this medicine, found permanent relief

The following certificate is from a practising PHYSICIAN and a much respected CLERGYMAN of the METHODIST SOCIETY dated

Modest Town Va Aug 27 1838

Dr Jayne Dear Sir I have been using your Expectorant, extensively, in my practice, for the last three months and for all attacks of COLDS, INFLAMMATION OF THE LUNGS CONSUMPTION, ASTHMA PAINS AND WEAKNESS OF THE BREAST, it is decidedly the best medicine I have ever tried

Very respectfully yours,
R W WILLIAMS, M D.

Extract of a Certificate from the Rev Dr BABCOCK, late PRESIDENT of WATERVILLE COLLEGE, Maine

"From intimate personal acquaintance with Dr. D Jayne & regular student of the Medical University of Pennsylvania and an experienced, successful practitioner of medicine, I was prepared to appreciate the numerous testimonials in favor of his different medical preparations much more highly than the great majority of those which are extensively eulogised. On trial of them in my own family and some of them personally, I have more than realized their favorable anticipations They are what they profess to be not quack nostrums—but skilfully prepared antidotes for some of the most afflictive of human diseases I know that they are highly esteemed, and frequently prescribed, by some of the most respectable of the regular practitioners of medicine in this city and elsewhere, and I do not hesitate to commend them as a valuable addition to our materia medica, and a safe, as well as eminently useful remedy for the diseased."

RUFUS BABCOCK, Jr

Philadelphia, 7th June, 1838.

The Rev C C P Crosby, late Editor of the American Baptist writes

NEW YORK June 15, 1839

To Dr Jayne Dear Sir I have made use of your Expectorant personally and in my family for the last six years with great benefit. Indeed I may consider my life prolonged by the use of this valuable medicine, under the blessing of God, for several years I may say almost as much in the case of my wife and also of the Rev Mr Tinson, of the Island of Jamaica For all cases of cough, inflammation of the chest, lungs and throat, I do most unhesitatingly recommend this as the best medicine I have ever tried My earnest wish is, that others afflicted as I have been may experience the same relief which I am persuaded they will by using your Expectorant C C P CROSBY

Extract of a certificate of the Rev Mr Bradford

Dr Jayne Dear Sir My child, owing to exposure, when recently coming up the Ohio, was attacked by that horrible malady, CROUP. We landed in the night at Beaver Point, and when our fears were alarmed least the hoarse, sepulchral cough was the forerunner of death, we gave him a teaspoonful of the "EXPECTORANT" (a bottle of which you presented me with when in Philadelphia) and applied some liniment to the throat and breast, and before many minutes the hoarseness was gone the child breathed freely and slept sweetly Owing to these circumstances it cannot be wondered at why I have so high an opinion of Dr Jayne's medicine, and why I advise every family to keep it on hand, ready for any emergency

Respectfully yours
ARTHUR B BRADFORD

Pastor of the Presbyterian Church, Darlington, Pa

June 9th 1839

Numerous other certificates might be added, but the above are considered sufficient evidence of its great usefulness

HAEMORRHOIDS,
NO CURE NO PAY.
PRICE $1
HAYS' LINIMENT.

NO FICTION This extraordinary chemical position the result of science and the invention of a celebrated medical man the introduction which to the public was invented with the solicitude of a death bed bequest, has since gained a reputation unparallelled fully sustaining the correctness of the lamented Dr. Gridley's last confession he dared not die without giving to posterity the benefit of his knowledge on this subject, and therefore bequeathed to his friend and attendant Solomon Hays, the secret of his discovery

It is now used in the principal hospitals and in private practice in our country first and most family for the cure of the Piles and also so effectually and effectually as to baffle credulity where its effects are witnessed Externally in following complaints

For Dropsy Creating extraordinary absorption at once

All Swellings Reducing them in a few hours

Rheumatism Acute or Chronic giving immediate ease

Sore Throat By cancers ulcers or colds

Croup and Whooping Cough Externally rub over the chest

All Bruises, Sprains and Burns—cures in a few hours

Sores and Ulcers Whether fresh or long standing and fever sores

Its operations upon adults and children in easing rheumatic swellings and loosening coughs and tightness of the chest by relaxation of the parts has been surprising beyond conception, a common remark of those who have used it Piles is a disease It is like a charm

THE PILLS The price $1 is refunded to any person who will use a bottle of Hays Liniment for the Piles and return the empty bottle without being cured These are the positive orders of the proprietor to the agents, and agents sold but one has been unsuccessful

We might insert testimonies in any quantity but prefer that those who sell the article should speak for the original to purchasers
